

Likun Ni

✉ nilk2022@mail.sustech.edu.cn 📞 +86 132-6557-6569

Undergraduate, Department of Statistics and Data Science
Southern University of Science and Technology, China

Research interests

Probability Theory, Stochastic Modeling, Applied Statistics, Network Science, Machine Learning, NLP, Data Science

Education

Southern University of Science and Technology (SUSTech), Shenzhen, China
2022 – 2026 (expected)

B.S. in Statistics, Department of Statistics and Data Science

Advisor: Asst. Prof. Yifang Ma

GPA: 3.49 / 4.00

Relevant Coursework: Probability Theory, Stochastic Processes, Mathematical Statistics, Linear Algebra, Real Analysis, Network Science, and Computing

The University of Tokyo, Tokyo, Japan

Feb 2025 – Aug 2025 (visiting research)

Information Technology Center – Collaborative Research Assistant

Advisor: Prof. Hiroki Hill Kobayashi

Research: **Social-Interaction-Aware LLM Agents for Individual Mobility Generation**

- Engineered a novel predictive agent powered by a Large Language Model (LLM) for the generation of individual mobility trajectories.

Research Experience

Entity Extraction and Collaboration Network Construction Using LLMs

Jul 2024 – Sep 2024

University of Hong Kong – Mentor: Asst. Prof. Shihui Feng

- Applied large language models (LLMs) to extract entities and relationships from COVID-19-related news.
- Constructed organization-level collaboration networks and optimized data processing workflows.

Concept Embedding and Author Network Analysis

Jan 2024 – Present

Southern University of Science and Technology – Mentor: Asst. Prof. Yifang Ma

- Developed concept embedding methods to analyze academic domains and author performance.
- Explored relationships between author features and their academic impact using vector representations.

The Small-World Phenomenon under a Restricted Kleinberg Model

May 2024 – Jun 2024

Course Project, Assoc. Prof. Yanqing Hu

- Introduced directional constraints in Kleinberg's model to examine connectivity patterns in small-world networks. Course Paper.

Work Experience

LocationMind Inc., Tokyo, Japan

Jul 2025 – Mar 2026

Intern, Development Department

- Conducted literature analysis on geospatial data applications and predictive mobility modeling.
- Analyzed geographic datasets and designed data pipelines for visualization and reporting.

Teaching Assistant – Prescriptive Decision Analytics (MIS204)

Sep 2025 – Dec 2025 *Instructor: Asst. Prof. Liyi Gu*

- Assisted the instructor in grading assignments and quizzes.
- Tutored students on core operations research topics, including linear programming, network models, inventory theory, and decision analysis.

Awards and Scholarships

- 2024 – Third Prize (Provincial Level), Contemporary Undergraduate Mathematical Contest in Modeling
- 2023 – Third Prize (Provincial Level), National College Student Statistical Modeling Competition

Technical Skills

Programming: Python (NumPy, Pandas, PyTorch, NetworkX), R, Java

Software: LaTeX, Gephi, QGIS

Languages: English (IELTS 6.5), Japanese (JLPT N1), Chinese (native)
